SUPPLEMENT TO
REPORT NO.

25X1X

1. At a meeting of the Tungan Association in Tihua on [REDACTED] LIU Meng-ch'un, Secretary-General of the Sinkiang Provincial Government, told the members that General CHANG Chih-chung was returning to Sinkiang Province from Peiping to assume control of the province.
2. It is rumored in Tihua that the Sinkiang Provincial Government is attempting to turn over control of Sinkiang to the Chinese Communists.

25X1A

25X1A [REDACTED] comment. Nationalist control in Sinkiang is now almost non-existent and the provincial officials probably feel that alignment with the Chinese Communists would put the provincial government in a stronger position in dealing with the USSR. The indigenous elements in Sinkiang are generally anti-Chinese and the fact that the new regime would be Communist is not likely to change their feelings. At present, because of the opposition of the Moslems in Ninghsia and Tsinghai Provinces, it would be most difficult for the Chinese Communists to send any troops into Sinkiang. Any realignment of the provincial government will probably take place slowly. The end result may be that the position of Sinkiang in relation to Communist China will be similar to the position of the Mongolian People's Republic in relation to the USSR.
